Are you presently serving on any boards? If so, which boards do you serve on and in what positions?</u>	<u>What skills and/or expertise can you offer? How will the organization benefit from your participation? How do you think we could best take advantage of your expertise?</u>	<u>What kind of time commitment will you be able to make? Are you able to serve on committees and attend quarterly events? Can we expect you to regularly attend monthly Board of Directors meetings?</u>
12/6/2019 15:52:00	mark.garcia@highmark.com	Mark Garcia	I would like to continue my service on the board as I believe I can provide unique perspective in my service on the board.	Currently on the IPMA Board of Directors	I have a wide range of technical and security experience accumulated over the last 20 years. My roles have ranged from technician, management, architect, consultant and owner. I have served in roles both paid and volunteer allowing me the opportunity to do a good deal of public speaking as well.	Yes, attendance should not be a concern.

12/6/2019 19:27:00	buckrgjr@comcast.net	Robert Buckingham	I'm interested in continuing to serve on the IPMA Board for multiple reasons. I'm looking to take advantage of my experience to provide some leadership and to expand my security background knowledge and references. I want to mentor and help educate others gain security knowledge. I'd also like to expand my contacts and meet new people	At this time, I don't serve on any other boards, but I am looking to become a member of others if they can benefit from my background and experience. I do serve as multi-term President of the Westmoreland County Animal Response Team (a volunteer animal emergency response team).	I have many years of experience in all facets of IT and over 15 years in security. I have been in the healthcare environment for 7 years and previously owned my own consulting company. The IPMA Board can benefit from my experience and my ability to see the bigger impact and overall effect of things. I bring a different point of view to the table. My experience can best be utilized by taking advantage of my willingness to work with anyone and my many years of broad experience.	I don't expect any issues with any necessary time commitments for the Board. I should be able to serve specific committees and attend meetings and events.

12/6/2019 14:55:00	mconley@indsci.com	Mike Conley	As a responsibility of my CISO role at Industrial Scientific Corporation, I contribute to keeping people safe in the critical infrastructure sectors that we serve through our gas detection and EHSQ platforms. InfraGard provides me a mechanism to network with others in both the private sector and the FBI to learn, share and experience new ideas that help me achieve my company's mission of ending death on the job by 2050.	I serve as the Secretary of the InfraGard Pittsburgh Members Alliance and also on the governing committee of the Greater Pittsburgh CISO Group.	I have a background in cyber security and software development that enables me to share stories of what I've learned throughout my 20 year career. I am able to do simple public relations and help facilitate scheduling events, sometimes at Industrial Scientific in Robinson Township west of Pittsburgh.	As evident with my contribution over the past two years on the IPMA BoD, I am able to server on committees and attend events.

			<p>I am interested in serving with the IPMA Board of Directors because I have a passion in reducing cybercrime and I believe this is best accomplished from an infrastructure approach. I regularly encourage end users in the community, security professionals, business professionals, security vendors and organizations to participate in events, education opportunities, and discussion to use share and use information to improve overall cybersecurity. InfraGard's mission of sharing actionable intelligence information for counterintelligence and cyber issues is</p>	<p>Throughout my career, I've had steady growth in leadership development and have had many opportunities to do volunteer work.</p>	<p>I have several skills and varying expertise that I can offer to the organization, including leadership, networking, organization, process development, and technical and security experience. I have experience in working for local and global organizations and I'm keenly aware of the challenges of each. At Tube City IMS, I oversaw the security, technology and software development; and responsible for the development of the strategic plan to enable the company's growth from 22 locations in 2 countries to 74 locations in 14 countries. In my current role at Mars Bank, I am responsible for overall security initiatives, as well as infrastructure and digital banking technologies, and regulatory requirements. Throughout my career I've regularly developed cross-functional teams across the organization to develop new solutions and processes that significantly impact the</p>	<p>Given my current and foreseeable schedule and commitments, I certainly am able, and look forward, to attending regular monthly Board of Director meetings, serving on committees, and attending quarterly events. Additionally, I will have more time to serve starting January 2020, as some my other</p>

					<p>· Pennsylvania Bankers Association Information Technology Committee (Chair) – I have served on this committee as a member for 3 years and I am now in my 3rd year of serving as chair. Additionally, I chair the annual IT conferences and have recently chaired the Digital Banking Conference. I've developed subcommittees for cybersecurity, infrastructure, regulation, fraud, and technology products. Each of the subcommittees are chaired by members of the committee and are technology leaders in their banks.</p>
